DEFENDANTS' AFFIRMATIVE DEFENSES

Answering further, Defendants raise the following affirmative defenses:

FIRST AFFIRMATIVE DEFENSE

The Complaint fails to state a claim upon which relief can be granted.

SECOND AFFIRMATIVE DEFENSE

Defendants have not infringed United States Patent Number 5,425,085 and have not infringed United States Patent Number 5,519,769.

THIRD AFFIRMATIVE DEFENSE

Plaintiffs' Patents are invalid, void and unenforceable because:

- a. Plaintiffs' Patents describe and claim alleged inventions, the making of which did not involve the inventive faculty but only the obvious judgment, knowledge and mechanical skill possessed by persons having ordinary skill in the art to which the alleged invention pertains.

Defendants aver that the subject matter claimed in said patents fails to comply with Title 35 § 102 and § 103 of the United States Code in that the differences between the subject matter claimed in such patents and the prior art are such that the subject matter as a whole was either fully anticipated by the prior art or would have been obvious at the time the alleged invention was made to a person having knowledge of such prior art and having ordinary skill in the art to which such claimed subject matter pertains.

b. Plaintiffs' Patents do not contain written descriptions of the invention, and the manner and process of making and using them, in such full, clear, concise and exact terms as required by the statutes of the United States to enable any person skilled in the art to practice the inventions purported to be covered thereby.

c. Plaintiffs' Patents do not adequately set forth the best mode contemplated by the inventor of carrying out the inventions purported to be covered thereby.

d. The claims of Plaintiffs' Patents are fatally vague and indefinite, and therefore invalid and void, because they do not particularly point out and distinctly claim the subject matter of the alleged inventions, as required by title 35, § 112 of the United States Code.

e. Upon information and belief, Plaintiffs' Patents were obtained by fraud in that the applicant intentionally made false and misleading statements to the Patent Examiner.

f. Upon information and belief, Plaintiffs' Patents were obtained by fraud in that the applicant failed to call to the attention of the Patent Examiner prior art public knowledge and uses of which he had knowledge and over which the alleged inventions were not patentable.

Other particulars with respect to the grounds of patent invalidity above set forth will be furnished to Plaintiffs in writing by Defendants at least thirty (30) days before the trial of this case in

compliance with Title 35 § 282 of the United States Code. Any additional grounds of invalidity of said patents of which Defendants may hereinafter learn will be brought to Plaintiffs' notice by appropriate proceedings.

FOURTH AFFIRMATIVE DEFENSE

Defendants aver that, by reason of proceedings taken in the United States Patent and Trademark Office during the prosecution of the applications for the Plaintiffs' Patents, the claims of the Plaintiffs' Patents are limited and restricted by their terms and the prior art and are made so by limitations and restrictions made therein under the requirements of the Commissioner of Patents and Trademarks during the proceedings in the Patent and Trademark Office while the application for said patents were pending, to the extent that Plaintiffs are now estopped from maintaining said patents to be of such scope as to cover or embrace any products being made, used or sold by Defendants.

FIFTH AFFIRMATIVE DEFENSE

Defendants independently designed and invented the products in question.

SIXTH AFFIRMATIVE DEFENSE

Upon information and belief, the Patent and Trademark Office Examiner failed to cite pertinent prior art as references and thus the presumption of validity of the Plaintiffs' Patents provided in Title 35 § 282 of the United States Code is greatly weakened or destroyed.

SEVENTH AFFIRMATIVE DEFENSE

Plaintiff is barred from recovery by reason of waiver and/or estoppel.

EIGHTH AFFIRMATIVE DEFENSE

Defendants had no knowledge that any of their activities constituted infringement and thus their actions were innocent.

NINTH AFFIRMATIVE DEFENSE

Plaintiff is barred from recovering statutory damages or attorney's fees pursuant to 35 U.S.C. 101, et seq.

TENTH AFFIRMATIVE DEFENSE

Plaintiff's claims are barred to the extent that the content at issue in this case is not the subject of valid patents.

ELEVENTH AFFIRMATIVE DEFENSE

Plaintiff is barred from recovery by reason of unclean hands.

TWELFTH AFFIRMATIVE DEFENSE

Plaintiffs' claims are barred by the doctrine of acquiescence.

THIRTEENTH AFFIRMATIVE DEFENSE

Plaintiffs' claims are barred by the doctrine of laches.

WHEREFORE, Defendants respectfully request this Court to grant judgment in its favor, order all claims of the Complaint dismissed with prejudice, award Defendants all costs, expenses, disbursements and fees incurred herein, including reasonable attorneys' fees, and such other, further and different relief as the Court may deem just and proper.
